**BEST WELLNESS SPACE**

SeaSpa by L'Occitane

At the heart of the World Traveller lies a sanctuary unlike any other at sea, the SeaSpa by L'Occitane, where the elegance of French wellness traditions meets the art of luxurious ocean travel.

This is not simply a spa, but a carefully curated interior environment, crafted to provide uninterrupted serenity even in the most remote waters. Inspired by the landscapes the ship explores, the design translates organic calm into space - combining soft, tactile materials, warm textures, and a palette of nautical blues, soothing neutrals, and natural tones. Floor-to-ceiling glazing anchors the interior to the horizon, creating a seamless dialogue between wellness, architecture, and the ocean.

Occupying 88 m<sup>2</sup> (947 sq ft), the spa is intimate yet complete. Two private treatment rooms offer tailored experiences, while the Serenity Lounge, with plush ocean-facing loungers, invites guests to linger in silence or contemplation, wrapped in soft linens and sipping herbal infusions as the ocean drifts by. Every detail is designed to immerse: L'Occitane's signature scent evokes lavender fields, almond groves, and Provençal hills. Treatments created exclusively for Atlas Ocean Voyages by L'Occitane's wellness experts combine organic botanicals with time-honoured techniques, beginning with a soothing Welcome Ritual that engages all senses.

Sustainability is integral to the design ethos. L'Occitane, an eco-pioneer since 1976, champions biodiversity, sustainable production, and eco-conscious packaging - a commitment shared by Mystic Cruises and Atlas. Together, they transform luxury into a responsible, enduring form of beauty.

A milestone in design history, the SeaSpa marks Atlas as the first cruise line to host a L'Occitane spa at sea. Recognised as World's Best Spa Brand in 2023 and 2024, L'Occitane brings its excellence on board, offering guests the same high-quality rituals as on land. Going beyond what other cruise lines usually do, Mystic Cruises/Atlas truly went out of the box by establishing this unique partnership with L'Occitane, working together on design and know-how exchange to open an entirely new business onboard.

More than a venue, the SeaSpa is an architectural experience where light, materiality, and wellness converge to create timeless renewal. In every detail, it reflects Mystic Cruises and Atlas commitment to creating not just voyages, but moments of pure, restorative beauty.
