

PRODUCT OVERVIEW

Ensa is reminiscent of the plummy palm fronds and wild ferns that thrive in warm climates. This elegant Sun Lounge exemplifies the perfect balance between visual lightness and structural resilience.

FEATURES

A powder coated aluminum alloy frame delivers lasting durability and refined style for any outdoor environment.

Our protective basecoat helps safeguard the structural integrity of every frame, delivering confidence-inspiring durability season after season.

High-performance, woven mesh slings offer superior comfort, colorfastness, tensile strength, and built-in antimicrobial protection for lasting outdoor performance.

Available with and without wheels.

A comfort cushion sling or a removable cushion in high performance fabrics adds a welcome layer of softness.
