

# ARIYA BY RAZZLE DAZZLE

CSI AWARDS SUBMISSION 2026 — BEST DINING SPACE

VALIANT LADY — VIRGIN VOYAGES — MAY 2026 DRY DOCK

## ENTRANCE

Curated motifs, block-printed forms and textile-inspired layers, created by contemporary Indian artists, reinterprets ancient geometries, coastal mythology and temple motifs. All of these ground the space in the coastal textures of Cuddalore, India, the birthplace of Ariya herself, Sir Richard Branson's great-great-grandmother who was the inspiration for this restaurant

## MAIN DINING SPACE

Hand-crafted patterns and natural textures root that palette in tradition, while a contemporary design language keeps the room composed rather than cluttered: the result is a space built specifically for gathering, sharing and lingering over food.

**CUDDALORE CUDDLE BOOTHS**

The palette is layered directly from an Indian spice market: turmeric yellow, sumac red and saffron, deepened with clove, cumin and toasted paprika, so the space reads as vibrant and grounded rather than themed.

**PRIVATE DINING**

Indian hummingbird-like sunbird tokens adorn the space, carrying forward her own belief that light and connection travel together. Every surface was chosen to be touched and read, not just admired.

**BAR DETAILS**

Cocktails built on spice, tea, fruit and Indian spirits extend that same journey from bar to table, supported by chai, wine pairings and a full zero-proof list. Food, drink, tabletop and presentation give the interior a lived rhythm, turning a well-designed room into a space that feels soulful, social and distinctly Virgin Voyages.
